

Free vs Enhanced Listings

Revfluent offers the ability to maximize revenue for Best of the Best contests with Enhanced Listing options. Use our preloaded, best practices or customize the features you offer free to all nominees or keep exclusive for paying advertisers.

Nomination Creation

Approved nominees receive a dedicated listing in your contest. Only enhanced listings will receive the features you choose as premium (identified by a star).

Nominees Want to Win

Every nomination in your Best of is a warm sales lead. Businesses want to be crowned king of their nominated categories. Motivated businesses will even pay for an edge. Keeping valuable features exclusive helps Sales Reps close more deals and revenue.

Our best practices for enhanced vs free listings come preloaded, adding utility for all nominees while driving sales.

Enable or disable optional features for standard (non-enhanced) nominations. Disabling a standard feature will mean it's only available for enhanced nominations.

Valuable Features:

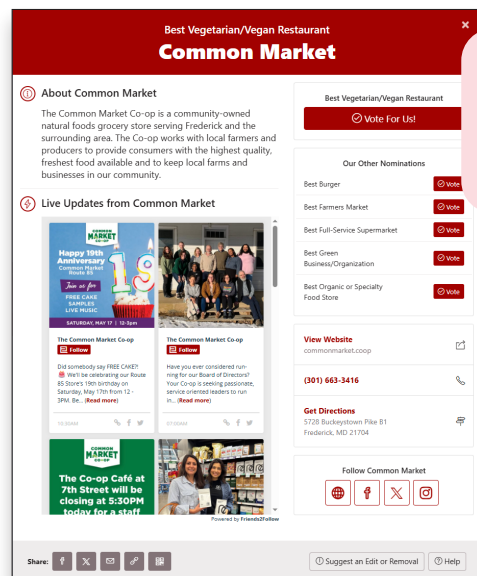

Priority: Enhanced nominees appear above regular nominees at the top of their category

Showcase All Nominations: Allows readers to easily vote for a nominee in every category they are in from their dedicated page

Friends2Follow: Display the most recent social media posts from a nominee on their dedicated listing

Share QR Code: Directs traffic to advertisers' dedicated listing

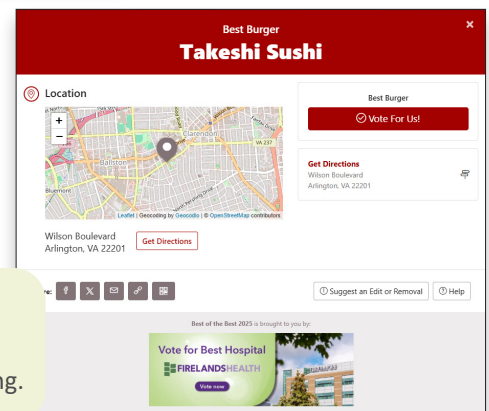

Enhanced Listing

Enhanced listings add value, visual excitement and resources for voters and advertisers. Customize yours to fit with your contest style!

Free Listing

Standard listings show basic information about a nominee to ensure accuracy while voting.

Note: Features **ONLY** appear if the associated nominee has that information added to their listing. Add it for them as a service option or send a "claim my business" link so they can add it themselves.
